

COURSE OUTLINE

Course Name: Clinical Practice 1

Department Head/Coordinator: Department Head: Lisa M Supeene **Effective Date:** September 2012

School or Centre:		Department:	
School of Health Sciences		Dental Hygiene	
Course History:		Year of Study:	
Replacement Course		2nd Year Post-secondary	
Name of Replacing Course (if applicable):	Clinical Practice 1 and 2 , DHYG 2234, DENT 3863	Course Number:	DHYG 2224
		Number of Credits:	8.5

Course Pre-requisites (if applicable):

Term 1 courses in Dental Hygiene Program

Course Co-requisites (if applicable):

Term 2 courses in Dental Hygiene Program

PLAR (Prior Learning Assessment & Recognition)

No Yes (details below):

PLAR is granted for competence in exposure of a timed full mouth survey of radiographs on a skull and for a client. Students must provide supplied documentation of prior learning for assessment to validate clinical experience.

Course Description:

This course will provide the learner with the opportunity to build on foundational knowledge and continue to develop psychomotor skills while providing clinical dental hygiene services to clients and practicing as a member of an oral health team. Emphasis will be placed on the integration of evidence-based decision making into dental hygiene practice, which includes the recognition of client values and the influence of social determinants of health on oral and general health. Learners provide dental hygiene care for clients from a novice to a beginner level by the end of the course.

Instructional Strategies:

Instructional strategies include experiential learning through the provision of dental hygiene services, student partner work, and clinical demonstrations.

Course Learning Outcomes:

Upon successful completion of this course, the learner will be able to:

1. Provide dental hygiene services and coordinate a safe, ethical clinical practice environment for clients and team members.
2. Provide interceptive, therapeutic and preventive clinical therapy incorporating the process of dental hygiene care.
3. Apply appropriate health promotion strategies and interventions as an oral health educator and client advocate recognizing the influence of the social determinants of health.
4. Integrate pertinent foundation knowledge and take responsibility for decisions and actions that reflect critical thinking and problem solving within a clinical practice environment.
5. Communicate clearly and accurately in written, verbal, electronic and visual forms with individuals regarding oral and general health issues.
6. Collaborate as a member of an oral health care team and with other health care professionals to provide oral health services to improve the health and well-being of clients.

Program Learning Outcomes:

A graduate has met the goals of the VCC Dental Hygiene Diploma program based on the Entry-to-Practice Standards and Competencies for Canadian Dental Hygienists (1) by reliably demonstrating knowledge, skills, and attitudes in the following domains:

1. Professional: Use elements of the arts and science of dental hygiene in the service of the public such as the application of codes of ethics and professional conduct, the development of safe practice environments, and the responsibility/accountability for decisions and actions appropriate for a self-regulating profession.

2. Communicator/Collaborator: Use effective verbal, non-verbal, visual, written, and electronic communication methods in the exchange of ideas, opinions and information relevant to dental hygiene practice. As well as influence and work with others to improve the health and well-being of the public.

3. Critical Thinker: Invoke systematic inquiry, reasoning, problem-solving and decision-making strategies in the provision of all dental hygiene services.

4. Advocate: Speak, write, or act in support of causes, policies, individuals, or groups that aid to reduce inequities in health status or improve access to health services.

Coordinator: Support client needs and outcomes through the coordination and management of services, actions and resources.

5. Clinical Therapist: Provide primary, interceptive, therapeutic, preventive, and supportive care procedures that enable individuals and groups to achieve optimal oral health that contributes to overall health.

6. Oral health educator: Apply teaching and learning principles to facilitate the development and expansion of skills, attitudes, knowledge and behaviour which support oral health and general health.

7. Health promoter: Use health promotion principles and strategies to enable individuals and groups to increase their control over and to improve their health.
