

DENTAL TECHNOLOGY SCIENCE ADMISSIONS PORTFOLIO GUIDELINES

One of the admissions requirements for the Dental Technology program is a submission of a portfolio demonstrating an aptitude for the Dental Technology profession.

Candidates Portfolio should include the following:

- A brief Bio about yourself and information outlining any recent (in the last few years) work experience or education.
- A short explanation summarizing why you are interested in Dental Technology.
- Include images or a short video showcasing items from past or current experiences demonstrating skill sets that align with completing practical tasks in the program. Provide a brief description for each item.

Examples of related items:

1. Dental related work
2. Similar skill set types of activities e.g. jewelry, ceramics, sculpting
3. Preliminary drawings, carvings of designs or artwork
4. Digital technology experience related to artistic or creative software

Recommended characteristics for success in this program

- Good health including good eyesight and hearing.
- Manual dexterity and hand-eye coordination.
- Ability to give close attention to detail for sustained periods of time.
- Ability to work accurately and neatly, and to manage time effectively.
- Good command of spoken and written English.
